Funding for this conference was made possible (in whole or in part) by the **Centers for Disease Control and Prevention** and/or the **Assistant Secretary for Preparedness and Response**. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the **Department of Health and Human Services**, nor does the mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

This activity has been approved for 5.5 **Continuing Nursing Education** contact hours through JSI Research & Training Institute, Inc. Activity #37538.0001 Nurses should only claim credit commensurate with the extent of their participation in the activity. JSI Research & Training Institute, Inc. is an approved provider of continuing nursing education by the Northeast Multistate Division, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

No individuals in a position to control content for this activity has any relevant financial relationships to declare.

**Objectives for the workshop include:**

- 1) Describe guidance relative to six planning considerations for Emerging Infectious Disease (EID) and Emergency Dispensing Sites (EDSs):
  - Surveillance
  - Risk communication
  - Vaccine management
  - Personal protective equipment
  - Behavioral health
  - Critical staff dispensing
- 2) Identify strengths and gaps in jurisdictional EDS plans relative to these six planning considerations.
- 3) Collaborate with regional partners to identify promising practices that may be incorporated into jurisdictional EDS plans to these six planning considerations.
- 4) Contribute to the development of template plan content.
